An Urban Christmas

For over 40 years Urban Planters has been bringing Christmas joy, festivities and sparkle, along with the decorations and trees to our customers throughout the UK.

We offer an extensive range of decorated trees, wreaths and garlands for the workplace. You can choose from one of our colour themes which vary from traditional styles to ultra-modern. You can also decide whether it's a real tree or an artificial tree that you prefer.

At Urban Planters we pride ourselves on offering a bespoke design Christmas service and while we have a range of themes, we also like to work with you to create inspirational Christmas scenes for your customers, visitors and guests to enjoy.

We hope you feel inspired by this brochure to start the Christmas journey. And remember it's never too early to talk about how big the tree should be and what colours to go for!

Vases & Bowls

If you want to add more sparkle to your Christmas theme, why not add some smaller festive displays onto your coffee tables, receptions desks and bar areas. Placing Christmas themed vases and bowls can really bring those areas to life. We can match the designs and colours to match your primary Christmas theme.

Presents

While we can provide presents for your choice of tree, we won't be able to provide the gifts inside we're afraid. All of our presents are hand wrapped and the colours are chosen to complement the decor of the tree to create that truly festive feeling.

Garlands

Our garlands add that extra finishing touch to any reception desk, bannister, bar or fireplace. Available in all standard colours or in a bespoke scheme if you choose. Garlands are 9ft long and can also come with or without lights.
