# BESPOKE ARTIFICIAL TREES

Bespoke trees custom made to any specification. Arboretum replica trees are foliated with FireSilx FR foliage. With incredible attention to detail and lifelike features, these museum grade trees are difficult to tell apart from the real thing.

**ARBORETUM**  
PREMIUM FABRICATED TREES 

*Our straight forward service guarantees you get the tree you want*

*Follow our three simple steps*

**1**

**Pick Your Foliage**

We have many FR variations of the same species foliage to choose from that will give your tree a different finished appearance.

**2**

**Select Your Canopy**

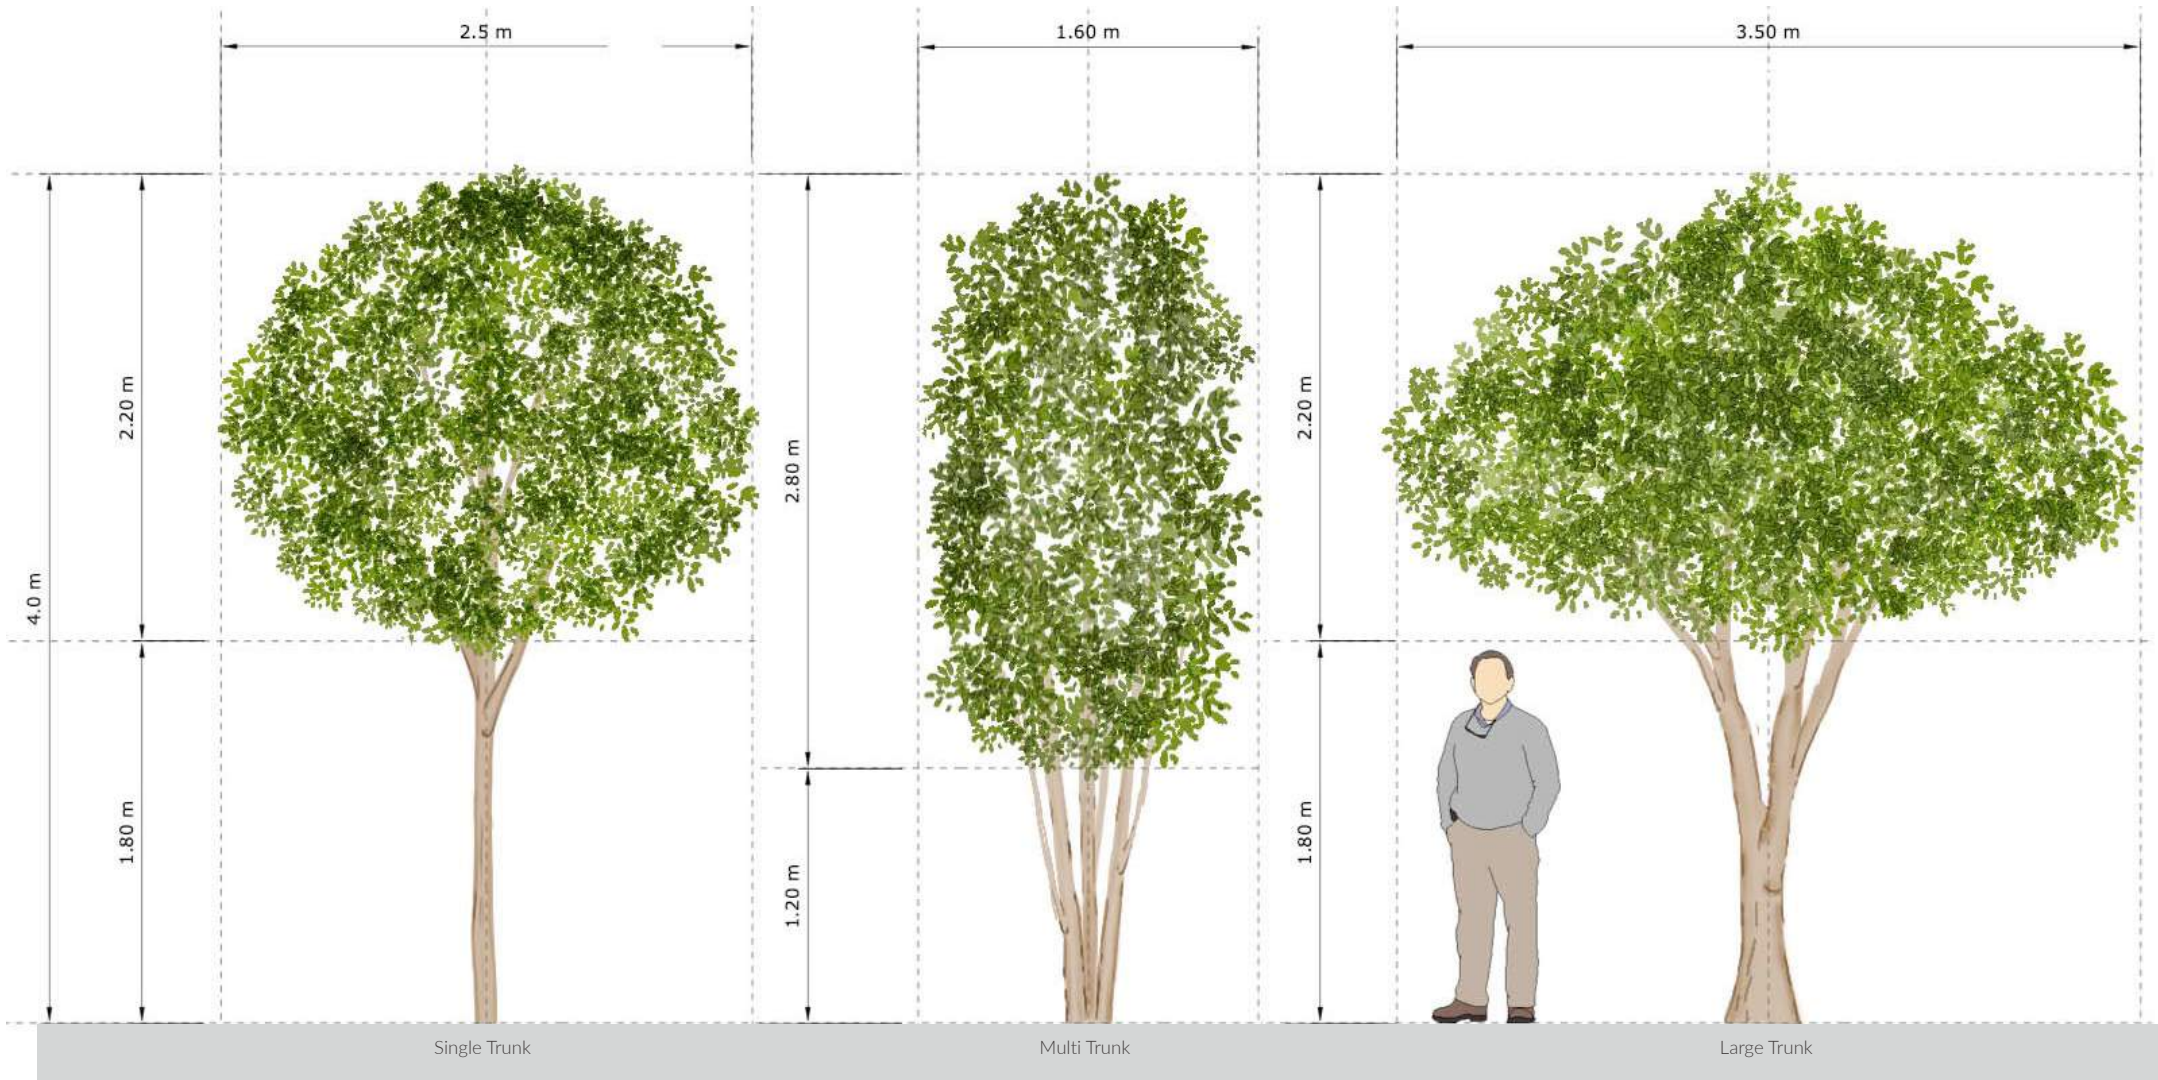

Tree canopies come in all shapes and sizes, and your bespoke tree is no exception. Any style from ceiling flat tops, to columnar Pillars we can manufacture it.

**3**

**Tell Us Your Dimensions**

We look for three key dimensions when designing your tree. Overall height, canopy width and ground to canopy clearance.

## Canopy and Trunk: Shapes and styles

### Canopy and Trunk Shape and Style

Small changes in canopy shape, canopy dimension and trunk style can make a big difference to the overall appearance of any finished tree. There are endless combinations, and we want to ensure your tree looks right for your project and works within the dimensions specified. Our friendly team are happy to advise on what will work best to keep the tree looking realistic and in proportion so that it won't look out of place in its final setting.
